

address book

Why keep my business cards here?

Because when you want to refer to them, they have a habit of not being exactly where you want them to be. If you are at home, they are at the office. If you are at the office, they end up at home. Or they're lost.

Keep track of important contacts:

- Insurance carrier
- Doctors
- Nurses
- Social workers
- Referrals
- Support groups
- New cancer buddies
- Wig shops, yoga studios and more...
